

CONNECTING THE FUTURE WITH ZIMMER AUSTRIA

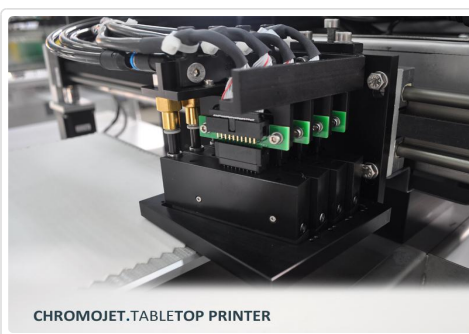

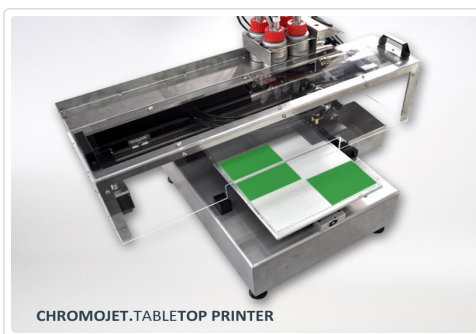

ZIMMER AUSTRIA shaped the market with pioneering innovations and revolutionary technologies. The Austrian based machine manufacturer has become **the benchmark for dependable high-class machines in the textile printing industry.**

With a product portfolio that includes coating, screen printing, digital printing, digital functionalisation, drying and steaming systems as well as a broad range of sample & lab machines.

At the TECHTEXTIL fair, we will especially focus on highlighting the advantages of our coating machines and lines for all 12 technical textile application areas.

Connecting the Future – the credo of the Techtextil fair, **ZIMMER AUSTRIA** will present their latest opportunities for decision makers and visionaries on the fast growing tech textile market.

Exhibited at our booth:

- **MAGNOROLL** Multipurpose Coating Machine – in the following executions:
 - **MAGNOROLL** Screen Coating, with magnet roll rods
 - **MAGNOROLL** Knife Coating, with the MK4 coating knife.
- **CHROMOJET** .
 - **TABLETOP PRINTER** – Digital laboratory printing machine
- Textile samples of various application technologies on different substrates

In our century of digitalisation and industry 4.0, **ZIMMER AUSTRIA** has the required know-how, the global business partner network and the profound technologies to cope with the market needs of **cost-effectiveness, quality and flexibility.** Ensure you competitive advantage and meet us at our booth!

First in Quality & First in Service – pioneering innovations for more than 140 years ...
... and more than 40 years of experience in Digital Printing

Connecting the Future
